## Vertical wall-mounted lift system

The *Vertical Lift* is the ideal solution for workplaces where several users work with a single computer and where available space is very limited, as for example in a medical environment.

This lift system lies extremely flat on the wall and enables you to place LCD monitor and keyboard in the ergonomically correct positions. If necessary the keyboard can be folded to the wall, resulting in a wall clearance of only 10,2 cm. You can pull the keyboard out smoothly and continuously to the optimal position for use.

The keyboard support can be pulled out by up to 12.7 cm and can be folded up through 90°. The extendable keyboard support with slide-out mouse shelf on the side are included in delivery.

**See the world from a new vantage point.**

## Vertical wall-mounted lift system

### Introduction:

Due to increasing pressure to reduce costs in hospitals while maintaining medical standards, members of staff are discovering that flexible mounting solutions can help them in achieving better efficiency and effectiveness. The extensive range of wall-mounting and attachment solution products is helping them to organize computer workplaces conforming to the strict criteria of the health services.

### Why should you decide for this?

- § Facilitates your access to patient data wherever needed
- § You work ergonomically correctly and thus guard against health hazards of computer screen usage
- § Saves space and is easy to use
- § Reduced hardware costs due to anti-theft safeguards
- § Patient data can be viewed by and discussed with several persons at once (colleagues, patient)
- § Customized solution based on your requirements at any desired location
- § Promotion of hospital hygiene

### Technical information:

monitor size up to 24"

weight of monitor and keyboard  
between 2.3 and 13.6 kg

height can be adjusted up and down by  
22.9 cm.

inclination of the monitor can be  
adjusted by 10°

exterior of the monitor can be cleaned  
easily

steel structure is stable and long-lasting

2 year guarantee on the gas pressure  
spring

5 year guarantee on all other  
components
